

## UPDATED LIST OF HAM RADIO EQUIPMENT FOR SALE (as of 4/2/20)

Our family is moving to a new home in Colorado where ham radio operation will not be possible. For this reason, I would like to sell the following items. All are in good condition and, to my knowledge, fully operational. Instruction manuals are available for most items. If you would like more information or would like to make an offer on any of these items, please contact Jonathan Poulton (W0CK) by e-mail (jonathan-poulton@uiowa.edu) or phone (319)-354-1735 (answering machine available). Our address is 729 Alpine Drive, Iowa City. Suggested asking prices are provided where possible. Returns are possible if you're not satisfied.

ICOM IC-737 HF Transceiver (160-10 meters) \$400
